French

English

Arabic

EXPERIENCE

July 4th, 2023 - August 25th, 2023

Beirut, Lebanon

Intern, WaveMark: Cardinal Health Subsidiary.

During my internship at WaveMark, a subsidiary of Cardinal Health, I actively contributed to the development and enhancement of healthcare technology solutions. This hands-on experience exposed me to a devOps software engineering environment, software testing, and the intricacies of healthcare technology. I collaborated with a skilled team, engaged in real-world projects, and gained valuable insights into the pivotal role of technology in healthcare. This internship not only deepened my technical skills but also nurtured my understanding of the healthcare sector's unique challenges and opportunities. It was a transformative experience that prepared me for a career at the intersection of technology and healthcare.

TECHNICAL SKILLS

- Tools

Oracle Express, Eclipse, Anaconda.

- Languages/AGL

Python, Java, C, SQL (oracle).

- FrameWorks

Linux, Microsoft.
